March 27, 2020

Dear Hainesport Residents,

The Burlington County Health Department informed the Hainesport Township Administration, Emergency Management and our first responders that one of our residents, a 48 year-old female, has tested positive for the 2019 Novel Coronavirus. Our thoughts and prayers are with this resident and her family.

Hainesport is a strong community, but this confirmed case is a reminder to all that we are not immune to current health concerns. All of us must make deliberate efforts to flatten the curve of the virus by practicing physical distancing, washing our hands thoroughly and often, coughing and sneezing into our elbow or a tissue, following all protocols that have been communicated to us over the past month.

We encourage our residents to continue utilizing our passive recreation areas including our walking trails and open spaces to engage in activities with **household members only**. Our playgrounds, exercise stations active sports courts and fields and restrooms facilities are closed. To receive reports that there continues to be large groups of individuals still gathering at our facilities to play close physical contact types of sports and activities is disappointing and very irresponsible.

Please continue to support one another during this challenging time. Follow the CDC's and health department's recommendations. Stay well and we will get through this together.

Thank you for your cooperation.

In good health,

A handwritten signature in blue ink, appearing to read "Bruce MacLachlan", is written over the typed name.

Bruce MacLachlan
Hainesport Township Mayor
